### **GROUP VOLUNTEERING GUIDELINES:**

It is not required that you provide the maximum number of volunteers indicated. When you confirm your workday, tell us the number of volunteers you will provide, and we will fill any remaining vacancies.

We would suggest you have several alternate dates should your first choice already be filled as this list is distributed to a large number of organizations, and we do fill these on a first-come, first-served basis.

#### ***GROUP VOLUNTEERING GUIDELINES:***

- Full-day commitment from 9:00-4:30 at construction sites
- All volunteers must be at least 16 years of age
- Those volunteers 16-17 must have two forms signed by a parent/guardian in order to work
- No previous construction experience is required, just a willingness to learn and to work
- All tools, hardhats, and safety glasses will be provided for your use on your workday
- Bring to the site: sack lunch, water bottle, sunscreen, and wear sturdy/closed shoes (no crocs, flipflops, sandals)
